PEACE RIVER LINE OF P.G.E.

Official Declares Company Will Begin Work Well Within in Three Months Allowed

Victoria, Mar. 23.—“A reconnaissance survey of the Peace River extension of the Pacific Great Eastern Railway has already commenced. A competent engineer with a well-equipped party was put in the field a few days after Lieutenant-governor Paterson gave his assent to the act passed at the last session of the Provincial Legislature, giving authority for the road's construction and guaranteeing the company's bonds to the extent of \$35,000 a mile. Under our contract with the government work must be started within three months. It is hardly necessary to say that we propose meeting our obligation in that respect, and that the enterprise will be under way by June 1.”

The foregoing statement was made by one of the officials of the Pacific Great Eastern Railway Company yesterday. He stated that the grading would, beyond question, be in hand within the period specified. A line out of Fort George into the Peace River country had been surveyed. It was now only a matter of confirming the locations, and, perhaps, making a few changes of minor importance. There was a probability that the line, which is to penetrate to a distance of 330 miles into the Northland to the eastern boundary of the province, would take a slightly different route to that now surveyed. This, however, would in no way interfere with an early opening of the work because the right-of-way for some miles out of Fort George had already been practically decided upon.

Debating N. T. R. Report

Ottawa, Mar. 25.—In a seven-hour speech in parliament today, Hon. George Graham contended that the report of the commission which investigated the building of the National Transcontinental and reported that wasteful methods had prevailed, was misleading and harmful to the interests of Canada abroad. He moved a vote of censure on the government for accepting the report. The debate is still in progress.

TRIALS OF RIOTERS ENDED ON MONDAY

New Westminster, Mar. 23.—At the close of the special assize for the trial of the Nanaimo riot cases, sentence was imposed today upon more than a score of prisoners convicted of complicity in the disturbances of last fall. Joe Angelo, an agitator who took a prominent part in the riots, was sent to jail for four years. A number of others received one-year sentences, while in a large proportion of the cases remaining on the docket the prisoners were allowed their liberty. Amongst others whose stay in jail was counted as a serving of their sentences was J. T. Place, the Socialist member of the legislature.

Temporary Linking-Up Early Next Month

It is probable that the Grand Trunk Pacific will be linked up within three weeks.

“There will be no formal ceremony or celebration in connection with the temporary linking up of the railway, which will take place early in April,” General Superintendent Mehan is quoted as saying. “The temporary track will be joined up over the temporary bridge at Nechaco as soon as possible, in order to get equipment through for our ballasting work. It will be some weeks yet before the permanent track and grade are ready.”

The track at this end is now within eight miles from the Nechaco, and the other end is less than thirty miles away. They should be ready in about two weeks' time.

With the temporary linking up a lot of equipment and material can be brought in by rail.

The golden spike will not be driven until the permanent grade and track are ready.

McBride on Conservation

Ottawa, Mar. 17.—Sir Richard McBride yesterday addressed the forest and waterways commission on the resources of the Dominion, dealing particularly with British Columbia. He urged the need of conserving Canada's natural resources, which would add many millions to the wealth of the Dominion. British Columbia, he said, had the world's greatest store of ore, of which but a small fraction had been explored, but that with the most encouraging results.

READY FOR FIRE FIGHTING

Local officials of the forest branch are preparing for a busy season. Forester R. E. Allen, returned on Sunday from Fort Fraser, having made all arrangements for fire protection in the eastern part of the district. The guards on Francois, Ootsa, and Babine lakes have been provided with boats and canoes. T. W. Brewer, ranger for the district, left on Wednesday to take charge, James Latham, ranger for the Hazelton district, will resume his duties next week.

MAY RENEW ORDER EXCLUDING ALIEN LABOR

Ottawa, Mar. 25.—Sir Richard McBride, who arrived here on Monday, has been in conference with Premier Borden and Hon. Dr. Roche, minister of the interior, discussing various matters of importance to British Columbia.

It is stated that a new head of the Indian commission will be appointed in the near future.

The western premier has asked for a renewal of the order-in-council excluding all alien laborers from Canada, which expires on March 31. This will probably be done. The whole question of Oriental immigration is under consideration, but no announcement of the government's intended action has been made.

W. W. Kerr, the well-known horseman of Hazelton, who is spending the winter in Vancouver, was rather severely injured a few days ago. A motor car,

driven by a woman, knocked him down, breaking his collarbone and inflicting other painful injuries.

Judge Young and Prosecutor Fisher arrived from Prince Rupert on Wednesday. The court docket was light. Wm. Lobenstein, who escaped from custody, was tried for the offence and given an additional two months in jail.

MOBILIZATION OF TROOPS IN ULSTER

Belfast, Mar. 23.—Following a council of war between Carson, Richardson and forty others, it was announced that the mobilization was perfected.

Sir Edward Carson is a public statement said: “The government is attempting to cower Ulster by intimidation and provocation, but will fail.”

A Dublin despatch announces the swearing of special constables for Ulster. This and the forwarding of detachments of specials from Dublin to Belfast, is regarded as an attempt to incite to riots, as no constables are accepted excepting Nationalists. All the troops here are confined to barracks. Thirty-five thousand volunteers are this afternoon drilling on the Shaftesbury estate. The official statement announcing the completion of the movement of troops ended by saying there was no intention to move into Ulster any troops except these for light purposes.

The conference between the King and Premier Asquith and ministers continued throughout the day. Winston Churchill twice visited Mr. Asquith, as did also Mr. Birrell. Colonel Seely had a long audience with the King.

The situation seems less alarming and the public are inclined to wait patiently. Mr. Devlin declared that the Nationalists were not asked for troops and if there were riots or disorders the responsibility would rest with the government.

The London Southwestern railway has received notice from the war office for rolling stock to be in readiness to move any number of troops up to ten thousand, with horses and wagons, on short notice.

Full Steamer Service Resumed Next Week

Albert Davidson, G. T. P. general agent, has announced the new summer schedule for the G. T. P. boats. There will be regular weekly trips to Granby Bay and Stewart. The new schedule goes into effect on Sunday, March 29.

The Prince George will leave Prince Rupert every Monday morning, returning the following Saturday morning. The Prince Rupert will leave Friday mornings and arrive from the south on Wednesday mornings. The Prince Albert or Prince John will leave for the south every Tuesday evening at 9:30.

The Prince Rupert will make a weekly trip to Granby Bay, leaving Wednesday at midnight. The Prince George and Prince John will alternate a weekly trip to Stewart, leaving Saturday.

There will also be a semi-monthly trip to Queenstown, Massett Inlet.

Clemency for Strikers

Ottawa, Mar. 25.—The governor-general today signed orders for the release of twenty-two Nanaimo strikers sentenced several months ago for rioting and other offences. The fines of \$100 each imposed on the prisoners will also be remitted. His Royal Highness acted on the recommendation of the British Columbia Government.

It is reported that the government is preparing for the military occupation of Ulster.

PROVINCIAL MEMBER HERE

Wm. Manson, the provincial member for this district, arrived on Wednesday, and has spent the intervening time in consultation with his constituents here regarding the needs of the district. In view of the general reduction of appropriations, from which Skeena district was not exempt, a certain amount of necessary road work must be postponed, and the adjustment of the appropriation allotted to this district is a matter requiring careful consideration. After personally looking over the ground, Mr. Manson expects to be able to arrange road matters in a satisfactory manner.

This evening the member will leave for Smithers and other Bulkley Valley points.

The fortnightly social evenings of St. Andrew's Society, which have been such a pleasant feature of the winter season in Hazelton, have been discontinued on account of Lent and the lateness of the season. They will be resumed next fall.

In St. Matthew's church, at Terrace, on Sunday last, Rev. W. J. H. Petter, formerly of Hazelton, and Rev. L. C. Banks, of Port Essington, deacons of the Anglican church, were ordained by Bishop Du Vernet, assisted by Rev. T. J. Marsh, who is much improved in health.

ACUTE CRISIS IN HOME RULE

Minister and Prominent Officials Resign as Consequence of Premier Asquith's Course

London, Mar. 25.—A new crisis in the Home Rule dispute has shaken the British cabinet. Colonel Seely, minister of war, General French, chief of staff, and Sir John Ewart, adjutant-general to the forces, have all resigned. They were joint signers of a pledge given General Gough, commander of the forces in Ireland, that the militia would not be used in any trouble that might arise in Ulster. This pledge was repudiated by Premier Asquith, who was supported by the rest of the cabinet. Col. Seely's resignation has not yet been accepted. He admitted in the house of commons that his action had been a mistake. In contradiction to Unionist reports, Seely said the King had not taken initiative of any kind.

Following the resignation of 76 officers at Curragh camp, a number of others have resigned. The Liberals say such officers are partisans first, soldiers afterwards. It is believed by the Liberals that the government will weather the storm.

London, Mar. 23.—Premier Asquith has authorized the Times to make the following statement on his behalf in order to remove misapprehension in the public mind regarding the government's action and intentions:

“The recent movement of troops in Ireland is purely precautionary in character with the obvious policy of disposing of small bodies of troops in Ulster, which would be useful from a strategic viewpoint. The intention is to give protection to the arms and ammunition depots for fear of a possible raid. As for the so-called naval movement, it consisted of the use of two small cruisers to convey detachments of troops to Carrickfergus without marching through Belfast. No further movement of troops is contemplated. The second rumor of warrants being issued of Ulster leader never had any foundation. Doubtless the Carson supporters believe the rumor, but the government has never taken or contemplated such a step. The third seems to show a widespread impression that the government contemplates instituting a general investigation as to the intention of officers in the event of being asked to take arms against Ulster. This action is not intended, if only for the reason that the employment of the troops against Ulster is such a contingency that the government hopes may never arise.”

Vancouver, Mar. 28.—George Bell, arrested in Calgary, and Harry Matthews, an American who is also in jail, are believed to be the two men wanted for the recent train robbery and triple murder on the Great Northern.

VOL. III. SATURDAY, MARCH 28, 1914. No. 30.

The serious nature of the situation in Ulster must be apparent to the most superficial observation. The failure of all attempts to reconcile the conflicting elements in Ireland by legislative action, and the expressed intention of the Asquith administration to force the passage of the Home Rule measure, may bring about a civil war which will be of disastrous effect. The men of Ulster declare that they will offer armed resistance to any attempt to force upon them an obnoxious form of government. Belfast, the Unionist stronghold of Ulster, may soon become the scene of bloodshed and strife which will spread dissension throughout the Empire.

It is to be hoped that even at this late hour some peaceful solution of the problem may be found. It is unthinkable that Britons should deliberately embroil themselves in an internecine struggle which would inevitably leave ineffaceable scars. Centuries would not suffice to heal the wounds inflicted in such a war as now threatens the Emerald Isle.

The Minister of Lands is arranging for the exhibition of finished forest products of British Columbia at all the Trades Commissioners' offices throughout the Empire. This must prove very useful. It is not sufficient to tell the world that we have timber of the highest class or to show the trade the rough article. Finished products tell their own tale and are the best possible advertisement.

The Minister has also arranged for a visit to British Columbia of a leading expert, who will consult with the millowners upon the best means of utilizing their waste products. At present the wastage in lumber is enormous.

Ontario's Compensation Act

Toronto, Mar. 21:—The Workman's Compensation Bill was introduced in the Ontario Legislature yesterday afternoon by Hon. I. B. Lucas, provincial treasurer. Following are the chief provisions of the bill:

Compensation for total disability calls for weekly payment equal to 55 per cent of average wage for the previous twelve months.

No contributions by employees to funds directly or indirectly.

Heavy penalties to employers in case premiums are deducted from wages.

"Waiting period" set at seven days. Compensation only allowed if worker is off, due to accident, more than seven days.

Burial expenses, a straight gift of \$75.

Allowance of \$20 a month, where a widow or invalid husband is the sole dependent; \$5 additional for each child up to 16 years.

Farmers are the only employers exempted from the operation of the bill.

The clerical staff of all manufacturing concerns are included under the same liability and rates as other employees.

The board of management is to consist of three members appointed for ten years each. The board is to have exclusive jurisdiction. Its decisions will not be subject to appeal or review in any court, nor can it be restricted, in any way, by injunction or otherwise.

Employers will be grouped for payment to the accident fund.

Laboratory Milk

London, Mar. 24:—The Times says that there has been brought to perfection in a London laboratory a process of synthetically manufacturing pure, wholesome

and highly nutritious milk minus the dangers of the original article from the cow. The discovery originated years ago, when a Chinaman thought that the soya bean prepared with native nuts might be a substitute for milk. A German chemist improved this by suggesting a composite fluid, including correctly proportioned ingredients of cow's milk. The manufactured milk is based on casein obtained from the soya bean, with fatty acids, sugars and salts added. Bacilli will be added for the manufacture of cheese and butter. It is also asserted that the "milk" will be manufactured cheaper than ordinary milk can be supplied to the consumer.

Vaughan Has Wrong Ideas

London, Mar. 24:—Rev. Father Bernard Vaughan, when called to task by Mr. J. O. Smith, the Canadian assistant commissioner of immigration, for his attacks on Canada in a speech at the Free Trade Hall, Manchester, in February, pleads "a printer's error" in regard to part of the complaint, and reiterates the rest of his statement. The northern farmer who advertised for a plowman in a colonial paper, Father Vaughan said he met in a railway carriage on the way to Blackpool. He did not know the man's name. He said he had received 200 pleading replies from men anxious to get back from Canada, not 2000 as reported.

To Mr. Smith's requests for an explanation of the statement "that conditions in Canada were terrible, there being three months good and nine months bad weather." Father Vaughan replied that these were the conditions which had been given him by people that had been resident in Canada, and that was all he would say.

To Celebrate Confederation

Ottawa, Mar. 23:—A resolution was moved in the house of commons by Hon. Rodolphe Lemieux expressing the opinion that the Dominion government ought to encourage the international exhibition which it is proposed to hold in Montreal in 1917 on the occasion of the fiftieth anniversary of the establishment of confederation.

W. F. Maclean, South York, thought if were to celebrate confederation, the practical method would be to revise our constitution. It would be fitting to mark the fiftieth anniversary by a revision of the British North America Act, which, he thought, was antiquated in many ways.

Memorial to Strathcona

London, Mar. 24:—A public appeal for subscriptions to the Strathcona memorial has been issued this week. The general committee includes Premier Asquith, Viscount Haldane, the Duke of Argyll and every other ex-Governor-General of Canada; Mr. Andrew Bonar Law, leader of the opposition; Sir Charles Tupper, Rt. Hon. Lewis Harcourt, colonial secretary; Bishop Perrin and many others.

The executive committee is drawn from those immediately concerned with Canadian business in London at present. The proposal is for a memorial window in Westminster Abbey, which, it is understood, the dean and chapter of the Abbey are willing to accept. This fund is to be limited to residents on this side of the Atlantic, individual subscriptions not to exceed five guineas.

Piracy in China Seas
Hongkong, Mar. 24.—Pirates yesterday boarded and looted the Norwegian steamer Childar off this coast, carrying off booty to the value of \$30,000, after overpowering, binding and gagging the six Europeans on board. The steamer was carrying 50 native passengers, and as she was lying outside the armed desperadoes sprang over the bulwarks, seized the officers and began their search for loot. The interior of the vessel was damaged badly by the band before they disappeared over the sides and escaped up the river in junks. The pirates wore pieces of white cotton as badges, something like those carried by the revolutionaries in the recent rebellion. The badges bore in Chinese characters the words, "Money comes easily."

STYLE

A matter not generally
known or fully appre-
ciated with regard to commer-
cial printing is the fact that
style, display (by which is
meant typographical arrange-
ment) and type-faces are sub-
ject to change, as in the case
of clothing and other fashions.
Modern printing shows a
marked tendency towards the
neat and plain in display with a
liberal use of margin, as opposed
to the old-style methods of
coarse, overcrowded and over-
ornamental composition. Not
every printer can give you the
better class of work. It is,
therefore, to your interest to see
that your printing is done at
the most fully equipped com-
mercial printing plant in the
Northern Interior, carrying a
large and high-grade stock of
stationery, and employing work-
men of experience and ability.
